

Testimonials from Satisfied Clients

"We have used O2 Consulting for several years on a variety of projects. Their ability to combine expert knowledge with customized service is what differentiates them from other consulting firms. We know we always have someone willing to help us during our pre-planned projects as well as our emergency crisis."

Bernie Orglmeister
MIS Director
Dilworth Paxson, LLP
Philadelphia, PA

"From the start, it has been a pleasure to work with Laurie Odgers. She is very professional and is very knowledgeable about the products she works with. We were actually referred to Laurie by iManage and could not be happier. She was able to fix a lot of problems left for us by our previous consultant and we have not had any issues whatsoever since. To say the least, we will be working with O2 Consulting in the future."

Thomas Coe
Network Administrator
Allen, Allen, Allen & Allen
Richmond, VA

"O2 Consulting is second to none in the industry! We were referred to Laurie Odgers via iManage over 5 years ago. We are greatly satisfied with all of the services provided by O2. O2 Consulting provides us with robust software solutions and most importantly, excellent technical support. We have worked with O2 on both large and small project and O2's recommendations and support have contributed to noticeable cuts in our administrative business expenses. Laurie is very professional and prompt. O2 Consulting is definitely a winner and any one who engages them will find their level of service and commitment hard to beat."

Laura Cacciatore
Systems Applications Manager
Christie Pabarue Mortensen & Young
Philadelphia, PA

"Laurie Odgers and O2 Consulting, LLC were primarily responsible for designing our systems and selecting appropriate software when our firm first became networked. Laurie personally trained all of our users. As we have upgraded over the years, she has been our guide in selecting the right equipment and software to meet our special needs. As we move ahead in developing our systems and software for the future, we look forward to continued guidance from Laurie and O2."

Steven M. Steingard
Shareholder
Kohn, Swift & Graf, P.C.
Philadelphia, PA

I have worked with O2 since its founding, and cannot find enough words to praise and complement it. Laurie has demonstrated her vast skills not only through her encyclopedic knowledge of technology, but through her ability to work with staff and lawyers of varying levels of computer savvy. She is a delight to work with and addresses questions in a timely and courteous manner. Her patience seems endless – no matter how many times she must explain something. O2 carefully crafts each project to meet the needs of the individual client and finds solutions that appropriate for the firm's practice areas, size and personality. Perhaps what says it all is that we will continue to use her for all our technology needs.
